Day 2: Port information not found

An "ocean" in the middle of the North American landscape: the Great Lakes, natural wonder and lifeline at the same time. With a total area of around 244,000 km² (94,209 mi.²), they are a superb dream destination for explorers. Each lock opens up a new chapter in a book of beautiful pictures that have come to life with the hues of Indian summer. Passable only for a few ships, the HANSEATIC inspiration masters these nautically demanding passages with flying colours thanks to its retractable bridge wings. This is also the case during the lock adventure on the Welland Canal. On the ship's many open deck areas, you are right up close when eight locks and almost 100 m (328 ft) of height are overcome, corresponding to a lock lift the height of Niagara Falls.

Afterwards, you will enjoy the very best views on your cruise on Lake Erie.

The British built Fort Mackinac on the island during the American War of Independence. Discover Victorian mansions and the 19th-century Grand Hotel on foot, by bike and on a horse-drawn carriage ride, as the island is car-free to this day.
