Departs On:	20 Apr 28
Departs From:	Iquitos
Arrives On:	08 May 28
Arrives At:	Belem
Cruise Nights:	18
Total Vacation Days:	19

Itinerary

Day 1: Iquitos (Peru)

Arrives On: 20 Apr 28

Day 2: Port information not found

If nature’s orchestra has created a masterpiece, then it’s the Amazon. Its name evokes a sense of temptation, risk and a yearning for adventure, but also for fragile and unique ecosystems. How does it feel to hear, see and sense it for the first time? Find out on board. The “Rio Mar”, as it’s known by the locals, is both a global symbol of the need to protect our nature and a wondrous, record-holding waterway. It is the setting for thrilling natural spectacles that you will experience respectfully and in the company of experts on your small, manoeuvrable expedition ship and its Zodiacs, weather and currents permitting.Your Amazon adventure begins in Pevas, one of Peru’s oldest coastal settlements. It is still characterised today by the traditional stilt houses of Indian villages, which gives you an idea of what it is like to live in the wild.In Leticia, an important trading

centre in the tri-border region of Colombia, Peru and Brazil, you will experience lush flora and plant life. Tropical fruits and vegetables and fresh spices on the colourful markets along the riverbank are a vibrant testimony to a culture that lives with and from nature. Tantalising colours and scents captivate your senses, accompanied by the whistling and calling of the parrots.This unique cruise is filled with astonishing sights – for example, on the Rio Jutai, when the cries of tropical birds reverberate across the water and you keep watch for exotic species. You will navigate the flooded forest with the Zodiacs between the submerged trees, which are covered with an abundance of vines and colourful flowering epiphytes.When the Zodiacs sail through the night-time jungle of Cuxiu Muni, look out for the eyes of caimans shining through the darkness. Your Amazon experts on board will introduce you to the bizarre world of reptiles and insects and explain the workings of the sensitive ecosystem with great enthusiasm.A Zodiac ride off Badajos through the small canals will raise your awareness of how special this place is. Huge water lilies adorn the water surface. Discover giant Brazil nut trees and the red flowers of bromeliads and passion flowers while the experts enhance your perspective on the fascinating undergrowth – for example, to help you marvel at the sloths or the capuchin monkeys doing gymnastics in the trees.

Arrives On: 21 Apr 28

Day 10: Rio Negro (Brazil)

On the Rio Negro, you will bear witness to the legendary “Encontro das Aguas”, the “Meeting of Waters”. The “Meeting of Waters” is the spectacular confluence between the dark Rio Negro and the pale, sandy-coloured Rio Solimoes, the name for this part of the Amazon River. In this unique natural spectacle, the two rivers do not mix immediately, but flow side by side for kilometres. From the deck and the deck tour at the bow, you will observe that the protected riparian landscapes of the Rio Negro look different depending on the water level. Your experts on board will have exciting stories to tell about the diversity of plants and animals that favour the riparian areas.

Arrives On: 29 Apr 28

Day 11: Manaus (Brazil)

Accompanied by the sounds of the jungle, you will reach Manaus, the capital of the state of Amazonas. In this metropolis on the Rio Negro, it becomes clear how closely nature and culture are intertwined along the river banks. The kaleidoscope of colours in the jungle and the metropolis seem to vie with each other, yet together they form a unique symbiosis. The rubber boom once brought Manaus fabulous wealth, as evidenced by the magnificent Teatro Amazonas, with marble from Carrara and crystal chandeliers from Murano. The colonial past and the global present collide in the jungle metropolis, where modern glass facades alternate with classical and art nouveau buildings. Prepare to be inspired by the city’s history and its contrasts.

Arrives On: 30 Apr 28

Day 13: Port information not found

Journey by Zodiac through peaceful lakes and wetlands, where changing water levels shape a dynamic landscape rich in aquatic plants and wildlife. Birdwatchers and nature lovers will delight in the abundance of life found in these habitats, where every season brings different discoveries.Seek out a natural treasure in Canacari. You will travel through grassy meadows in Zodiacs in search of the largest water lily in the world, the Victoria amazonica, which can grow to an incredible 3 m (9.8 ft) in diameter. But birdwatchers will also be in their element when great-billed diving petrels, silver and blue herons as well as various species of birds of prey show themselves.On the large river island of Tupinambarana, you can explore the city of Parintins. Here you can experience pure Brazilian exuberance shaped by Indigenous traditions – such as the famous folklore festival in June. Pay a visit to the cathedral or treat yourself to some regional delicacies.Enjoy a relaxing time in the village of Alter do Chao on the Rio Tapajos, where a surprisingly Caribbean-style beach invites you to swim in the warm water. A landscape that appears and disappears depending on the water level. Along the riverbank, the Brazilian rainforest invites you to discover its wonders together with your experts.To round off your intensive Amazon adventure, you'll visit Guajara, a small settlement where families live from cattle farming. Perhaps you will see mighty water buffalo standing in the river, grazing on aquatic plants. With a bit of luck, you will be able to observe the legendary pink river dolphins from your Zodiac – the young are grey at first and only change colour after two years.

Arrives On: 02 May 28

Day 18: Port information not found

During the daytime passage through the Breves Channels, the advantages of your small expedition ship will once again become apparent. The calls of the toucans, yellow-headed caracaras and saffron finches will accompany you. The lush banks close in around the ship, while it confidently negotiates challenging changes in direction – much to the delight of the locals, the Caboclos, who you will meet time and again on your adventure in their boats, both large and small. While you experience the Amazon once again with all your senses, your experts on board will quench your thirst for knowledge and also shed light on the tensions between unspoilt nature and global economic interests.

Arrives On: 07 May 28

Day 19: Belem (Brazil)

Arrives On: 08 May 28
