Drive to nearby Giza this morning for a guided tour of its storied pyramids, including the Great Pyramid of Giza, the last of the ancient Seven Wonders of the World, that have stood as defining symbols of Egypt for millennia. View the most instantly recognizable statue in the world, crafted in limestone with the body of a lion and the head of a king – the Great Sphinx has been mysteriously reclining atop its Giza plateau for more than 3,000 years, guarding still the unanswered secret of who built it and why. Enjoy lunch followed by a guided visit to the Grand Egyptian Museum (GEM),

one of the largest archaeological museums in the world and home to King Tut's largest collection of treasures. The remainder of the day is yours to explore Cairo as you please.

Day 3: Luxor (Egypt)

The River Nile has been an invaluable source of life for the people in Egypt throughout history as it provides them with food, water and an important transportation route. Fly to Luxor this morning, site of the ancient city of Thebes and an extraordinary open-air museum, where your Nile cruiser awaits, embarking ship in time for an onboard lunch. This afternoon, join us for an excursion to the Valley of the Queens, where the antiquities amaze. Continue to the Valley of the Kings for an after-hours private visit that includes entry to King Tutankhamun's tomb, renowned for the wealth of valuable antiquities it contained when it was discovered unopened in 1922. Return to your ship for dinner at leisure.

Arrives On: 03 Apr 27

Day 4: Luxor (Egypt)

With three main temples and several smaller ones constructed over hundreds of years, Luxor's Temple of Karnak is the largest complex of its time ever built, developed over a thousand years. Explore the site with an expert guide who shares insights about its history and construction, including the 134-columned Great Hypostyle Hall. A locally guided visit to Luxor Temple, connected to Karnak by an avenue of sphinxes, and dating back to the 1300s BC, follows. Return to your Nile cruiser for lunch and a leisurely afternoon cruise to Esna.

Arrives On: 04 Apr 27

Day 5: Edfu (Egypt)

Sail from Esna early morning and disembark at Edfu and visit the Temple of Horus, considered to be among the most beautiful and best-preserved temples in Egypt, with its roof still intact. It took 180 years for the temple to be built, and during your guided visit you'll discover why. Massive statues of Horus as a falcon guard entrances and the reliefs on its interior walls relate the story of the birth of Horus and depict Ptolemaic rulers making offerings to the gods and destroying their enemies. Following your visit, sit down with an Egyptologist and ask all your burning questions with a scholar who has dedicated their entire career to the study of Ancient Egypt. Return to your ship and cruise to Kom Ombo, where its unusual twin temples are just a walk away from your ship. Temple reliefs here feature a unique engraving thought to depict the first representation of medical and surgical instruments.

Arrives On: 05 Apr 27

This morning begins with a short drive to the river, followed by a boat ride across the Nile to Philae Temple, set on its own island and approached just as it has been for centuries – by water. With a local guide, explore the beautifully preserved sanctuary dedicated to Isis, then continue to the Aswan High Dam, a modern engineering landmark that reshaped the Nile's flow and Egypt's future. Return to your Nile cruiser for lunch at leisure and a relaxed afternoon on board, with time to enjoy the river views or simply unwind. Later, set out for a sunset felucca sail, gliding quietly across the Nile as the light softens over Aswan's shoreline – a timeless experience. Back aboard your ship, dinner is served at leisure as the river settles into evening.

The Great Temple stands 98 feet high with four seated colossi flanking the entrance and smaller statues depicting Ramessess' conquered enemies lining up below. The smaller temple, some 40 feet high, is adorned by four colossi depicting Ramesses and two of his queen Nefertari at a height of 32 feet.
